Wordpress Cloud

Wordpress Built for Business Success
Enterprise performance Hosting for small and
medium businesses.

Introduction

EloClouds offers a premium hosting service tailored for WordPress websites. Key features include a built-in CDN for accelerated performance, automatic updates, top-notch security with DDoS protection, SSL/TLS, and daily malware scanning. It comes pre-equipped with essential plugins like Elementor Pro and WP Rocket, ensuring seamless site optimization. The hosting also provides global data center access, daily backups, and 24/7 support, with an easy migration process and flexible pricing plans suited to any business need.

Blazing Fast Speed

EloClouds offers blazing-fast speed through several advanced features designed to optimize WordPress website performance:

- Free In-House CDN: Content is delivered quickly from servers close to users.
- Optimized Server Architecture: Servers are built to handle heavy traffic and high performance.
- Edge Caching: Ensures fast load times by storing data closer to visitors.
- Automatic Scaling: Resources adjust automatically during traffic surges.
- Low Page Speed Index: Reduces load times for a better user experience.
- Pre-Installed WP Rocket: Enhances speed with caching.
- Global Data Centers: Distributes traffic for faster international access.
- High Resource Allocation: More CPU and RAM for seamless performance.

Enhanced Security

Enhanced Security with EloClouds includes a robust set of features to safeguard your WordPress website:

1. DDoS Protection: Shields against Distributed Denial of Service attacks.
2. Web Application Firewall (WAF): Blocks malicious traffic and exploits.
3. SSL/TLS Certificates: Encrypts data between your site and users.
4. Daily Security Scans: Identifies vulnerabilities and security risks.
5. Automated Malware Detection: Alerts and removes malware threats.
6. IP Blocking: Prevents access from suspicious IP addresses.
7. Regular Vulnerability Updates: Ensures the latest security patches.
8. Security Monitoring: Constantly watches for suspicious activity.

These features together ensure a highly secure environment, keeping your website safe from common threats and vulnerabilities.

Ease of Management

The Ease of Management features at EloClouds provide a user-friendly hosting experience for WordPress. Key aspects include:

- Automatic Updates: Ensure your site is always current with the latest software.
- Pre-installed Premium Plugins: Enhance functionality with essential plugins like Elementor Pro and All in One SEO.
- Daily Backups: Protect your data with regular automated backups.
- One-click Restore: Quickly recover your site to a previous state.
- 24/7 Expert Support: Access round-the-clock assistance.
- Simplified Dashboard: Navigate site management easily.
- Seamless Plugin Management: Effortlessly manage all plugins.
- Comprehensive Analytics: Track site performance and user engagement.

Pricing Plans

Pricing Options

→ PRO WORDPRESS CLOUD

Ideal for growing businesses, the Pro plan includes enhanced speed.

$19.00 / monthly

1. 3 Instances
With 3 instances, you can host three separate websites or environments, ideal for businesses running multiple sites or testing/staging environments. Each instance is isolated, ensuring dedicated resources and performance for each site.

2. 20GB NVMe Storage
This plan provides 20GB of high-speed NVMe storage, significantly enhancing your website's loading speed and data access times, especially for media-heavy or resource-intensive sites.

3. 2 Core CPU
The 2-core CPU gives you double the processing power, ensuring your site can handle more traffic and complex operations, improving overall performance, especially during peak times.

4. 2 GB RAM
With 2 GB of RAM, your site can manage more simultaneous processes, reducing the chances of slowdowns or crashes. This is important for sites with heavier traffic or multiple plugins.

5. 3 Professional Emails
You get three professional email accounts tied to your domain. This provides credibility and professionalism when communicating with clients or customers.

6. Free CDN
The free Content Delivery Network (CDN) improves website speed by distributing content across a global server network, reducing load times for users worldwide.

7. Free SSL
A free SSL certificate encrypts communication between your website and its visitors, boosting security and SEO rankings while fostering trust among users.

8. Automated Daily Backup
This feature provides automatic daily backups of your site, ensuring that you can easily recover data in case of accidental loss, crashes, or malware attacks.

9. Free Migration
The free migration service makes it easy to transfer your site from another host to EloClouds, with minimal downtime or disruption to your operations.

10. Elementor Pro (Save $588/y)
Elementor Pro is a premium page builder, enabling you to create visually appealing, fully customizable web pages using drag-and-drop features, saving you $588 annually.

11. All In One SEO Pro (Save $595.20/y)
This SEO plugin optimizes your site for search engines, driving more organic traffic and improving search rankings. The savings reflect the value of this professional tool.

12. 24/7/365 Support
Around-the-clock support ensures any technical issues or queries are resolved promptly, providing you with peace of mind and consistent site performance.

These features are designed to provide enhanced performance, security, and ease of management for growing websites or businesses.

Free Unlimited Migration

Switching to EloClouds is seamless and stress-free. Our team of experts is ready to help you migrate your website without downtime, ensuring a smooth transition. Whether you're upgrading or looking for more reliable performance, we'll handle the technicalities so you can focus on your business. Contact our team today to get started and enjoy the benefits of our optimized WordPress Cloud hosting with no hassle.
